

One more invention from the
INNOVATIVE LEADER

AUTOTEX
BLS

The world's first bobbin holder with
BOBBIN LOCKING SYSTEM

Not just Holding...
It is a system to Hold & Locking too.

1s

SAVING

Save Everyware

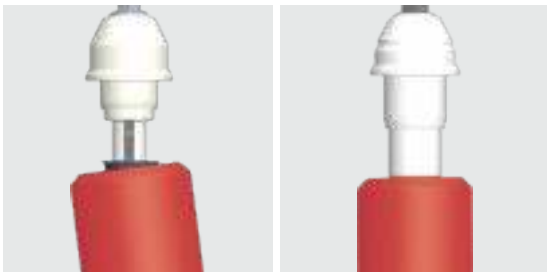

- Bore damaged bobbins can be utilized.
- Replacement cycle of bobbins can be reduced.
- Shortage of bobbins can be avoided.

2s

SOLUTION

Uniform unwinding of roving.

- Bobbin locking system avoids tilting of bobbin.
- Bobbin holder and bobbin is become as a single part.
- Provide a stable holding of bobbin.

3s

STURDINESS

Long life of bobbin holder.

- Sturdy structure avoids breakage during handling.
- Suitable for handling in transportation system.
- Ensures durability for longer life.

4s

SAFETY

Avoid accidents and damages of other parts.

- Locking system avoids bobbin lifting.
- Bobbin falling can be avoided.
- Ensures safety to machine parts and human.

5s

SATISFACTION

Customer satisfaction in quality yarn.

- Ensure uniform delivery of roving.
- Minimizes difference in the yarn.
- Appreciation of yarn in the market.
