

One more invention from the
INNOVATIVE LEADER

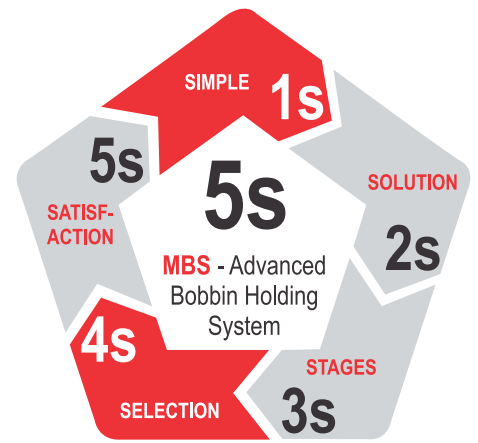

AUTOTEX

MBS - 5

Multi Brake System

Any Material | Any Count | Any Hank
Any Roving Weight | Any Spindle Speed | Any Machine

One Bobbin Holder - **AUTOTEX MBS**

1s **SIMPLE**

Simplicity & Flexibility make possibility.

Any Material | Any Count | Any Hank
Any Roving Weight | Any Spindle Speed | Any Machine

One Bobbin Holder - **AUTOTEX MBS**

2s **SOLUTION**

Uniform feeding by optimum break force.

Simplified selection system helps to change the required brake force for various process parameters with out stopping the machine.

3s **STAGES**

Four compact able stages to select.

Provides with four stages to select brake force as per the applications.

4s **SELECTION**

| | |
|---|---------------|
| 1 | Special |
| 2 | Finer |
| 3 | Medium |
| 4 | Coarser |
| 5 | Extra Coarser |

Brake force stages & Applications

Four different colours.

Identified by hi-visible four colours for easy conformation of required stage.

5s **SATISFACTION**

Customer satisfaction by better quality yarn.

Minimizes difference in yarn by uniform feeding. Appreciation of yarn in the market.
